

Year 5/6 Week ending: 3/2/23

Continuing measurement this week, we moved onto area and perimeter. These tasks were completed in a range of ways: counting squares, measuring with rulers and using skills of addition, multiplication and division.

Topics this week:

Our world - Our Impact
Living Things and Their Habitats

Year 5/6 have planned out the rest of their fantasy stories by building descriptions of new characters and reading and annotating key features of quality texts.

This has helped us to prepare for our build up, events and dilemma writing.

Testing our maps skills during geography is a firm favourite.

After looking at deforestation and the top 10 wood producing countries, they were able to label these on our new class map. Year 5/6 then went on to produce some informative posters about deforestation.

Science consisted of looking at micro-organisms and how they can be harmful.

An investigation was started to explore the best conditions for mould growth.

French

Year 5 and 6 have been learning about the French festival of light - La Chandeleur (Candlemas) and the tradition of eating pancakes on that day 2nd February.

Miam miam!

Une recette pour les crêpes - a pancake recipe if you would like to try! Yum!

Ingrédients

75ml de lait 

2 oeufs 

50 g de farine 

Une pincée de sel 
(a pinch of salt)

Un saladier

Un fouet

Une poêle

Pour 2 grandes ou 4 petites crêpes - makes 2 big or 4 small pancakes

1. Mettez la farine et le sel dans le saladier - put the flour and the salt in the bowl.
2. Ajoutez les œufs et mélangez bien avec le fouet - add the eggs and mix well with the whisk
3. Ajoutez le lait peu à peu et mélangez bien - add the milk little by little and mix well
4. Mettez un peu de la pâte dans la poêle et cuisinez-la - add a little batter into the oiled frying pan and cook.
Bon appétit!

Yum!
