

St George's Early Years Weekly Blog

w/b 5/9/2022

We have all settled into our new school year beautifully! Our new topic is 'This is me' so we have been getting to know each other and our names. We have painted self portraits for display and have drawn and talked about our families at home.

Our first story to read and explore is Goldilocks and the Three Bears. We have retold the story using story characters and through pictures in our Black Pen Drawing books. We've made character puppets and bear collage pictures.

We've enjoyed playing together in the home corner role play area.

We have enjoyed playing and turn taking with the trikes and scooters in our outdoor area.

We've played and compared the sounds of the different musical instruments and have made our own using the junk modelling.

Maths. We have built towers using the blocks and counted how high they were. We're made patterns with the 2d shapes and Beatrice even made a pattern in the play dough!

We love listening to stories — we listen to them altogether as a class and love to ask to listen to them when we are choosing too.

Squiggle Whilst You Wiggle and Dough Disco have become an instant favourite for everyone!

We have enjoyed our new morning 'snack and chat' time. This week we learned each others names, our favourite breakfast and about each others families.

The marbles, sand pit, small world dinosaurs and construction bricks have been popular this week.

In Early Years we go outdoors in all weathers — the rain and storm certainly didn't stop us! We were very independent when putting on the wet suits and wellies and had a great time jumping in the puddles.

The creative area, junk modelling and writing areas are always popular — we have been very creative and independent in our choices.
