

Year 5/6 Week ending: 25/11/22

This week we have started fractions.

We have consolidated finding equivalents with every member of the class!

Some of us were using some challenges involving equivalent fractions and capital cities from around the world.

Well, done!

Topics this week:

Trade Past and Present

Animals Including Humans

Year 5/6 have thoroughly enjoyed reading the first chapter of: Great Expectations.

They decided it was an extremely brutal and traumatic start for young Pip.

After being so engrossed, they have made a great start to their diary entries.

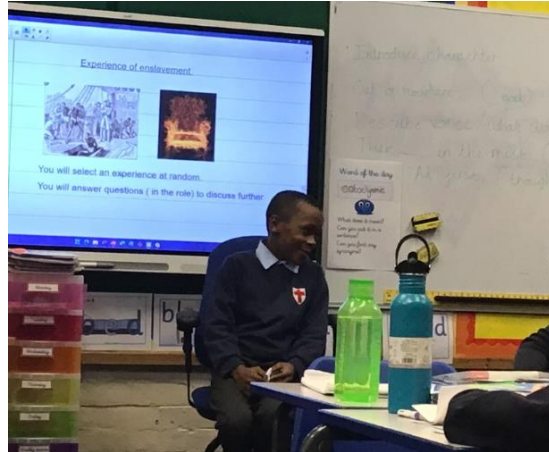

Trade past and present.

In geography this week, we took on the role of slaves.

We were able to locate main links in The Atlantic Slave Trade on a world map.

After hearing some real-life experiences, we took part in some hot seating to help us write in role as a slave.

PE was dancing with a bit of hip hop this week!

In science, Y5/6 were testing out the effects of exercise on our heart rate.

There was a lot of active fun to carry out this investigation.
